

## ***D&R CANAL* videos to be featured at Kingston Historical Society meeting.**

The meeting will be held at 7:30 pm Tuesday, June 7<sup>th</sup>, 2016 at the Kingston Firehouse on Heathcote Road in Kingston NJ. The meeting is free and open to all. Refreshments will be served.

The program will focus on the Delaware & Raritan Canal. After some background on the canal and its past and present importance to Kingston, KHS president Robert von Zumbusch will lead us through two videos: one “*D&R*” produced and directed by Cliff Crawford in 1976 - before the Canal Park was established; the video includes historical footage and interviews with ‘canalers.’ The other, ‘*The Canals of New Jersey*’ produced by the Canal Society of New Jersey, provides a comparison with New Jersey’s other navigational canal, the unique Morris Canal, which was very different from the D&R.

As an architect at the firm CUH2A Robert had principal responsibility for the D&R Canal Historic and recreational Development Plan, which became one of the five Master Plan documents of the D&R Canal Commission; he currently a member of on the D&RCC Master plan Advisory Committee.
